Deccan Aviation

In each issue of *Serendib*, we profile a participating partner of SriLankan Airlines' groundbreaking FlySmiLes programme. This month, we take a look at Deccan Aviation, the only private helicopter service in Sri Lanka, and a charter partner of FlySmiLes.

Exclusive to FlySmiLes, members can now redeem their FlySmiLes points to **charter a private helicopter or aircraft to fly to any destination within Sri Lanka**. It's our special way of thanking you for being a guest on board SriLankan Airlines. After all, there's hardly anything better than getting off your SriLankan Airlines flight and being flown direct from the airport to your ultimate destination within the island in true style by helicopter! And for nothing more than FlySmiLes points earned on SriLankan Airlines.

FlySmiLes members who are paying guests of Deccan earn significant FlySmiLes points for every dollar spent on helicopter or aircraft charters, that can subsequently be redeemed for benefits on SriLankan Airlines or any one of our participating partners.

So, whether you desire a drop to your beach getaway or a round of golf in verdant hill country, FlySmiLes members can choose to either redeem or earn points on each flight within Sri Lanka.

FlySmiLes silver and gold members also bypass the switchboard and get access to Deccan's SkyConcierge service. No demand is too great for the SkyConcierge, who will personally attend to helicopter or private aircraft reservations, look after every detail of your trip, ensuring your domestic flight arrangements are as convenient as a phone

call, even making suggestions of local restaurants and places to visit.

We saved the best for last. Not only do your FlySmiLes points allow you to fly in style, **you can also take along up to two friends FREE OF CHARGE** with no extra redemption required!

Deccan Aviation Lanka operates a fleet of US-built Bell and Robinson helicopters, in addition to several aircraft ideal for your transfers within the island. ✨
